Canada Ratings

Note: blocking a rating affects all the higher ratings, so that blocking "13 ans+" in the example above automatically blocks "16 ans+" and "18 ans+", whatever previous state of these ratings was. If a password is defined while a TV program warning is received for the current channel, sound is muted and the following menu is displayed on the center of screen; what's more, the rating information should be consistent with current active program rating.

This Channel is blocked by the French Canada Rating of "G"
